

## Summer (10)

Practical and sincere, Summer weighs up situations in her own time before coming to a decision. A giver, she dislikes attention which makes her blush. Enjoys demystifying **Pillow's** funny mix-ups (money grows on trees, don't put all your eggs in one basket) and happily tolerates Otto's chaos with her usual 'I told you so' look but secretly loves the responsibility of putting things right. Her strong moral compass, sweet nature and time for the underdog make her a cool, likeable girl. Uninfluenced by social media, she doesn't mind being geekish and isn't bothered by popularity. She's quietly clever and is learning to play the piano and violin at school as well as studying Greek in her spare time.

## Otto (10)

Boisterous yet gentle, cool Otto is a fireball of energy. Competitive and outdoorsy he's quick to react and frequently gets into trouble just for being **Otto**. Usually saved by the knowledgeable pace of his twin he prefers to stay true to his boyish buoyant self rather than learn from his mistakes. On a path to express his individuality he's admired but understood by few except **Pillow** so he readily gives her access to his 'boys' world' where no other girls are allowed. Popular at school, he rarely has a dull moment and lives life to the full. Everyone wants to be Otto's best friend!
